

CATALOG / 01

The digital product shelf.

Four premium offers with direct external Stan purchase links. This free catalog contains no paid manual pages or chapters.

Purchase and delivery

All purchase links below lead to **stan.store/kreativecontent**, a separate checkout. Confirm the product, current price, terms and delivery information there. Customers receive purchased content through Stan when the product's delivery is configured. Delivery has not been tested by purchasing these products.

Separate from an AI membership

These Stan digital products are not AI Studio subscriptions and do not grant site membership or monthly runs. AI Studio Creator, Pro and Studio currently use test-only checkout on the main site. Creator Club is a separate waitlist-only content pack.

Pricing/availability subject to change.

CATALOG / 03

Free is clearly separate.

Start with an original public resource — not a free copy of a proprietary book.

Available free on the main site

Site User Guide: beginner instructions for navigation and implemented features.

7-Day Creator Starter Checklist: a newly authored planning checklist.

Build My Channel: five free curated post ideas with a text download.

Jaxx sample pack: an illustrative plan, not a purchased campaign.

About the paid originals

The original paid manuals have not been transferred from the owner's ChatGPT file library into this site. No original full PDF is uploaded or publicly downloadable here. This catalog lists only the four supplied current Stan purchase destinations; it does not use the old Launch Primer link or invent contents for other manuals.

Before you buy

Review the Stan listing and final checkout price. Confirm how and when the file is delivered and what is included. Keep your purchase confirmation. Use the support details supplied by the checkout if delivery does not arrive. Never send card details or account passwords to support.
